Driving Business Productivity

DEPLOY MOBILE & WEB APPS BY NON-PROGRAMMERS IN 5 DAYS

Introducing the Freedom Platform™: A Model-Driven, Agile Platform-as-a-Service enabling non-programmers to easily build Mobile and Web Apps, fully integrated to IT's core applications like ERP, CRM, Manufacturing etc. in 5 days or less.

appsFreedom drives business productivity by delivering "Workplace Freedom" for employees, through the Freedom Platform to collaborate, build, deploy and run apps on any Smartphone, Tablet or Browser with a simple user-based subscription model.

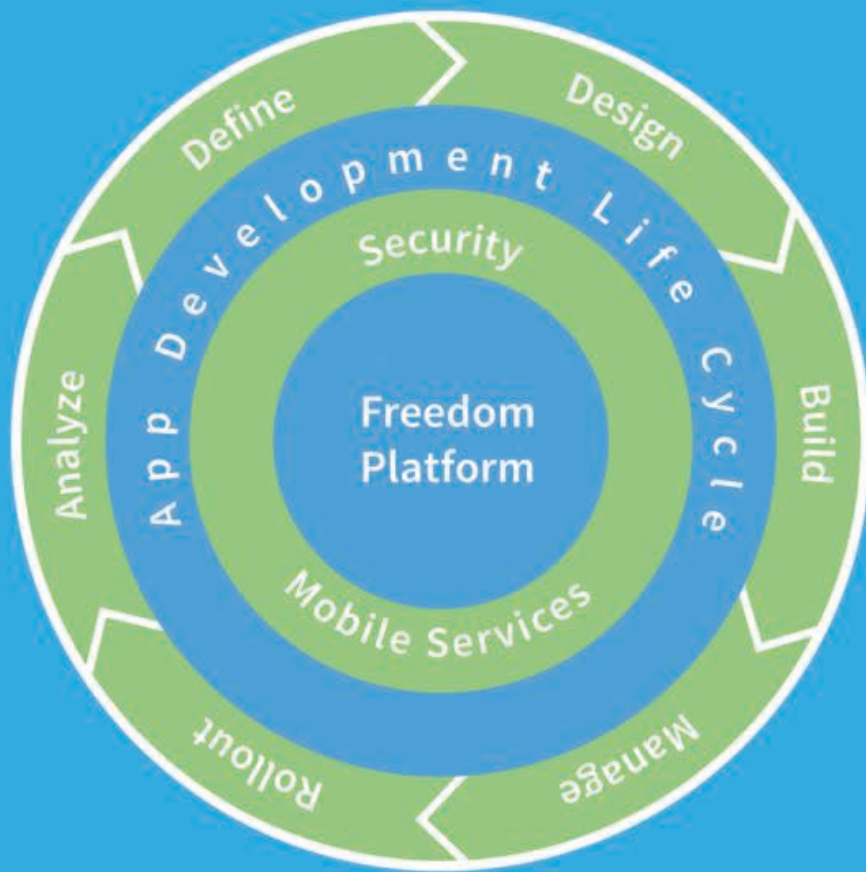

DELIVER AT THE PACE OF BUSINESS

The Freedom Platform is the only Cloud-based Collaborative, Rapid Design and Development Platform, built for Business Analysts, Architects, Project Managers and Tech-Savvy Business experts to develop mobile and web apps, with a single tool, without requiring that developers be involved in every project.

It is the only Mobile-First, Platform-as-a-Service, that allows IT to deliver projects at the pace of business without adding any more burden to already constrained IT resources.
